

GONZALO MENDEZ

Full Stack Developer React · Next.js · Node.js · TypeScript · Java

Peñarol, Montevideo, Uruguay | +598 97 311 860 | gonzalomendezdev@gmail.com | github.com/coweringg | linkedin.com/in/gonzalomendezdev

VALUE PROPOSITION

Full Stack Developer, 20 years old, with real production experience and an active SaaS product in the U.S. legal market. Worked 7 months at a 110-employee company delivering Java and TypeScript code adopted directly into production. I build from frontend to backend — React, Next.js, Node, Java — and ship.

WORK EXPERIENCE

Junior Full Stack Developer (Internship) · NocNoc

May 2024 – November 2024 · 7 months · Includes Seller Management rotation (1 month)

- ▶ **Full stack development in production:** Implemented new user-facing features and backend business logic in Java & TypeScript, with code shipped directly to production at a 110-employee company.
- ▶ **Technical support & infrastructure:** resolved technical incidents in under 2 hours without interrupting active sprints; rotated 1 month to the Seller Management team participating in daily standups and operational documentation.
- ▶ **IT asset management:** formatted and configured Windows machines ready for production; implemented a numbered inventory system (10, 20...) tracked in spreadsheets, ensuring full asset traceability.

Reference: Luca Carbonel — Backend Jr Developer, NocNoc · +598 98 358 473 · lcarbonel@nocncocstore.com
